Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In response to the amendment of March 11, 2008, and in view of further consideration, the following new ground of rejection is made. It is regretted that this rejection was not earlier applied. It is also noted that in response to any future amendment by applicant, additional prior art rejections may follow.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-29, 31 and 32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. On pages 20 and 21 of the specification, and throughout the claims, it is not clear what is meant, and what structure is being set forth, by the disclosure and claiming of the spring rate of the solenoid spring substantially matching the power curve of the solenoid assembly. It is not clear if this discloses and claims specific structure of the solenoid, and what this structure comprises, or if this sets forth a structurally unsupported functional limitation of the solenoid and/or spring. It is also not clear what is meant by "matching", and "substantially matching". It is also not clear if this is setting forth a solenoid using a conical spring, or more specific structure of the solenoid, which

is used with the conical spring. Explain. It is also noted that the disclosed graph of figure 13 does not set forth any particular structure of a solenoid and/or spring.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lloyd A. Gall whose telephone number is 571-272-7056. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
